

To Whom It May Concern:

I recently was informed about the need for an upgrade on our present sewer system in Swan Lake. I do agree that we are in need of an upgrade. We don't need a more expensive upgrade to accommodate any future housing developments which would ruin the beauty of our countryside and bring other problems. I am tired of seeing the destruction of beautiful forests being destroyed. Building permits have to be denied for summer residences. We already have too many new developments that are putting a strain on our police, post office ,roads, parks and so forth. I don't want my property taxes to go up to accommodate the other services. I moved up here for peace and quiet.

Respectfully yours,

Linda Siegel
