

I am writing to express my concern that the Liberty Town Board is considering the more expensive of two options to fund the needed upgrade to the Swan Lake Sewer Plant.

I am in agreement with those who spoke at the August 31st meeting regarding the impact so many new developments will have on not only future tax increases, but also the rural character of our hamlet. Too much is too much!

Please consider this note my support for the less costly option to upgrade the current system.

Sincerely,

Cynthia Herring
