To Whom it May Concern,

We have just become aware that our sewer system might not be able to handle ALL the new communities our area is allowing to grow. Most of these new communities are tax exempt (I believe), therefore, we, the tax payers feel we tend to be the taxed at a higher level that supports these new communities. We have seen that the Town of Liberty has proposed a 20 million increase in the town budget to cover the cost on an upgrade to the sewage system to accommodate these new developments. For this reason I believe that the 10 million proposal is best. I am hoping these new communities will be able to contribute to our tax base and therefore spread the cost of our wonderful lifestyle amongst all to enjoy.
